Summary

Full Stack Developer with hands-on experience building web applications and a strong understanding of software development. Looking for an opportunity to contribute, learn, and grow as a software engineer.

Skills

Programming Languages: JavaScript, TypeScript, SQL, HTML5, CSS3
Backend: Node.js, Express.js, WebSocket, REST APIs, tRPC, JWT, Zod
Frontend: React, Next.js, Tailwind CSS, shadcn/ui, zustand
Databases & ORM: MongoDB, PostgreSQL, Redis, Mongoose, Drizzle, Prisma
Tools: Postman, Git, GitHub, Monorepo

Training & Certifications

Full Stack Web Development Training **Jan 2026 – Jun 2026**
Chai Code — *View Certificate*

- Built a strong foundation in full stack web development through six months of intensive, project-based training with a focus on practical software engineering.
- Developed end-to-end web applications by integrating frontend, backend, and database systems while understanding the complete software development lifecycle.
- Built real-world applications and gained practical experience to continue growing as a software engineer.

Projects

Form Builder | *tRPC, Monorepo, Zod, Next.js, PostgreSQL, Node.js*| GitHub **2026 - Present**

- Built a SaaS form builder application where users can create accounts, build dynamic forms with custom field types, and share forms via slug-based URLs.
- Structured the entire codebase as a Turborepo monorepo with tRPC for end-to-end type safe API calls. Improved maintainability and developer experience

Polling Application | *PostgreSQL, Node.js, Express.js, Socket.io, React*| GitHub **April 2026 – May 2026**

- Built a full-stack polling application where users can create accounts, log in, and create polls with multiple questions and options.
- Integrated real-time analytics using Socket.IO to instantly update poll creators with live response data and participation counts.

Additional

- **Technical Writing:** Published 50+ technical blogs on DNS, browser internals, JavaScript, Git, and scalable backend systems using Node.js and Express.
- **Core Subjects:** Operating Systems (Processes, Memory Management), Database Management Systems (DBMS), and Computer Networks (TCP/IP, DNS, HTTP).

Education

B.Sc. Information Technology **2023 – 2026**
Guru Nanak Dev University, Amritsar
